Sign up now for our Budget Plan!

- *Monthly payments instead of large peak-season bills
- *Automatically charge a credit card so payment is never overlooked (optional)

Under our budget plan we estimate your total fuel bill on the basis of past usage with our Company. Budget payments are due on the 15th of each month, 12 months a year, beginning on July 15th. Any remaining balance at the end of the season will be due by June 30th.

If you currently have one of our heater insurance plans, we will also factor that into your monthly payment amount.

NOTE: Your budget amount may be adjusted at a later date, depending on fuel prices and your usage during the upcoming season. At one time we were able to set a budget amount and it would last for a 12-month period, but with today's volatility, that seems to be no longer possible. Budget *must* be up-to-date for deliveries to be made.

If you are interested in enrolling in our budget plan, please fill out the bottom and return it to us.
